

The background of the entire page is a vibrant blue gradient. The top half features a sky with soft, white, fluffy clouds. The bottom half is filled with numerous translucent blue bubbles of various sizes, some with white highlights, creating a bubbly, aquatic effect. A white rounded rectangular border frames the central text area.

COLLOIDAL SILVER

HUNDREDS OF EVERYDAY USES

How is it, the practice of 'Natural Medicine', which has been around for over 3000 years, is called "ALTERNATIVE", while the practice of 'Allopathic Medicine', which can be measured in decades, is officially referred to as "TRADITIONAL"?

Colloidal Silver Delivery Methods and Equipment

Eye Dropper - Delivery to Eyes, Ears, and Nose

Dropper Bottle - Delivery to Eyes, Ears, and Nose/Sinus - with portable storage - take it with you, and treat conditions throughout the day.

Spray Bottle - Throat, Topical Applications, Cuts, Bandages and Dressings, Rashes, Psoriasis, Acne, Nail Fungus, Disinfecting/Cleaning

Nebulizer - Delivery to lungs and respiratory system - Respiratory Infections, Lungs - Also gets a decent amount of Colloidal Silver into the blood.

Ultrasonic Humidifier - Use it like a Nebulizer.

Some of the many uses for Colloidal Silver

Eye Infection (Conjunctivitis) - Tilt your head back, and using the Eye Dropper, put several drops of Colloidal Silver into your eye. Repeat frequently throughout the day, until you achieve the desired result. If infection returns after it is cured, it may indicate that the infection is in the sinus. They are connected. Try attacking it from both ends, the eye, and the sinus.

Respiratory Tract Infections - Use a nebulizer, loaded with Colloidal Silver, and breathe the Colloidal Silver mist deep into your lungs. Repeat as needed to clear the infection.

Cuts- Spray Colloidal Silver onto the wound, and dressing to prevent infection, and promote healing. Colloidal Silver Does NOT Sting or burn. Colloidal Silver may be used as the only medication on the dressing, or it may be used with another medication. Continued use of the Colloidal will minimize scarring.

Burns- Spray Colloidal Silver onto the burn, and bandage. Bandage lightly, keeping the bandage moist with Colloidal Silver. Change the bandage daily.

Acne- In addition to omitting sugars, fats and chocolate from the diet, any person with acne should wash and rinse the face thoroughly four times a day. After each rinse, take a small amount of Colloidal Silver and massage it onto the problem areas two to three times with a finger, a tiny piece of cotton, or tissue. This wash-rinse-massage activity may be continued throughout an acne breakout. It may also be used as a continuous prevention through the teen years. This continuous habit precludes breakouts, leaving the skin continuously clear. Most people find it helpful to carry a small bottle of Colloidal Silver with them, for availability throughout the day.

Dandruff - Wet the scalp with Colloidal Silver, using the spray bottle, and then briskly massage the Colloidal Silver into the scalp. Part the hair into small sections, and apply to small areas at a time, massaging it into the skin! Massage into the skin using fingers, and / or a soft brush once to twice per day (If Possible) until flakes are gone, then you may reduce treatment to twice per week. Repeat frequently, until you achieve the desired result. Add Colloidal Silver to shampoo!

Teeth, Inflamed gums, and / or excessive plaque - Brush the teeth twice daily with Colloidal Silver. That will eliminate any gum disease, and the bacteria that cause plaque. Use a NEW toothbrush, dip it in, or spray it liberally with Colloidal Silver, and brush. Do not use tap water.

Cysts - Spray each cyst with Colloidal Silver, it will eventually turn black, burst and look like dried blood.

Intestinal Problems / Digestion - Put the recommended daily amount of Colloidal Silver into the beverage of choice accompanying any meal. As the food is digested, the presence of Colloidal Silver will keep the food from putrefying in the digestive tract, killing any germs ingested with the food, and leaving the food more usable. Also there may be reduced flatulence.

Stomach or Intestinal Virus - Gastroenteritis - Dosage 200 ml or more of Colloidal Silver, followed immediately by a good sized glass of water to push the Colloidal Silver into the intestine, rather than allowing it to be absorbed by the stomach.

Diarrhea and Diarrhea Diseases- A number of diseases such as cholera, canine parvovirus or other diseases, where the pathogen resides mainly in the large intestine, can be fatal. The fatality is mostly due to the dehydration of the body resulting from severe and prolonged diarrhea and vomiting. The pathogen causing the problem is active in the large intestine, the one place where Colloidal Silver when used correctly will not penetrate. There are two different methods to overcome this barrier. The first is to take a 200 ml glass dosed with Colloidal Silver, together with three or four big glasses of water, on an empty stomach. This way the Colloidal Silver will get into the large intestine, and should within a short time, take care of the problem. The other method is by way of Colonic Irrigation the dose rate using a 50 mg. Colloidal Silver preparation is 15 ml per 200ml. of sterile water. This method in fact brings the fastest relief from the disease. Medical literature reports that Cholera has been cured with Colloidal Silver.

Parasitic infections- Take an amount of Colloidal Silver, to prevent parasitic diseases caused by tiny, worm like animals that burrow through a particular organ, or in some cases throughout the entire body. In every case, these parasites reproduce by laying eggs and these eggs have the same characteristics of the oxygen-metabolizing enzyme as the single celled bacterium. These eggs cannot hatch when there is sufficient Colloidal Silver in the surrounding body tissue. They are killed within a short time and subsequently eliminated by the immune system.

Cataracts- 1 dropper of Colloidal Silver in each affected eye, twice daily for 2 weeks or longer. The cataract will start to fade in color and treatments can stop once you can no longer see a cataract.

Ears & Hearing Loss - This can occur at any age, for a variety of reasons. Use 1 dropper of Colloidal Silver in each ear, twice daily. You should notice a hearing improvement BEGIN, after 10 days.

MRSA infections - can be used successfully to combat MRSA infections. MRSA (methicillin-resistant Staphylococcus aureus) is a staph infection that can be fatal and is now resistant to antibiotics.

Vaginal yeast infections . Can be applied topically for vaginal yeast infections or oral thrush (yeast infection). Could be useful for chronic jock itch as well.

Eczema and skin rash - Dab Colloidal Silver directly onto affected area, rubbing slightly. Repeat often to keep the area moist with Colloidal Silver. Bandage lightly, if desired, keeping the bandage moist with Colloidal Silver. Change the bandage daily. Massaging Colloidal Silver in improves effectiveness.

Attention Gardeners- Sterilize your soil with a small amount of silver in your water. Also soak rockwool cubes before taking cuttings. CS has demonstrated to kill all damp off diseases indoor and out. Fresh cut flowers last much longer with the addition of a little Silver to the water!

Pets - Your pet will love drinking Colloidal silver water. As a test, pour two identical amounts of water in similar bowls and add CS into one of them. See which one your pet prefers!

VETERINARY USES OF COLLOIDAL SILVER

The following conditions in animals, birds and fish have been successfully treated with Colloidal Silver:

- * Bacteria and parasites in house pets, farm animals and birds.
- * Parvovirus in dogs.
- * Revival of belly-up goldfish.
- * Scours and undulant fever in cattle

COLLOIDAL SILVER IS THE PLANETS MOST POTENT ANTIBIOTIC

Colloidal silver has a fully documented 90-year medical history of safety and effectiveness!

There literally thousands of uses for Colloidal silver that are not mentioned here. Colloidal Silver is the worlds most potent and effective antibiotic, antiviral, antibacterial and anti germicidal agent known to humankind!
